Report of Selectmen and Overseers of the Poor

We herewith submit our report for the fiscal year ending January 31, 1934.

This year has been one of constant struggle, especially in the financial affairs of the town. The unemployment conditions have been much worse than the previous year, and the expenditures of the various accounts have been greater than would have been, in order to give men employment and relieve direct relief.

ROAD WORK

During the year we were able to get an appropriation from the federal relief money for the construction of the approach to the Richmond-Dresden bridge, and an improvement to that part of the highway known as the Ferry Road. While this work was a grant, we had to share the employment with the Town of Bowdoin in the proportion of 75% for Richmond and 25% for Bowdoin. This had to be done in order to get the work. A large amount of money was spent on the construction, and the amount of completed road for the money spent was not satisfactory, but we had little or nothing to say about it, and had to take what we could get with good graces. We were able to get permission of the State Highway Commission to build State Aid, Third Class and State Resolve highways. We did not have the cash to spend on these construction jobs, and had to employ those who wished to apply their earnings to the taxes which they owed. Of these two construction jobs known as Third Class and State Resolve, the town has not been reimbursed for the amounts expended, but will receive them as soon as the State can finance the reimbursement, this was understood

when the work was undertaken, but we saw no other way to give relief to the tax payers. We were very much pleased with the response of the tax payers in doing this work, they were all glad to do it, as they did not have any other way of meeting their tax bills, and by so doing we collected a much larger amount of taxes than would have otherwise been possible. And we suggest that this is a good plan to work each year, and saves the borrowing of large amounts of money.

The appropriations for Highways and Bridges has been overdrawn by a considerable amount, this could not be helped, as the amount appropriated would not even keep in passable condition the town highways. We believe that the town highway money has been well expended, and a large amount of gravel has been used to surface those roads that are of clay surface, and what has been done has put those sections of roads in much better condition and will not be subject to so much rutting as previously, naturally with the money we had there was not a large mileage covered by this method of repair. We do however wish to call the tax payers' attention to the amount of Third Class and Resolve highway construction that has been done, a longer distance and a better road has been constructed with the amount of money available than for many years previous, and was supervised by the third member of your board of selectmen.

FINANCIAL

When your board took office we were in the midst of a bank holiday which lasted for some two weeks before we were able to negotiate any loans, but fortunately during this time we were able to handle the situation. But when the local bank closed on the first day of May, the situation was much more embarrassing and difficult to handle, we were obliged during this time to make partial payments

but were finally able to negotiate a loan that helped to clear the condition.

C. W. A. WORK

Your board was able to secure work for the unemployed and those receiving direct relief through the Civil Works Administration, in order to get this allotment it was necessary for the town to furnish a portion of the materials and labor. The board elected to confine the work to sewer work. There being several deplorable sewer conditions in town, and the work was laid out with that intention. The severe weather conditions that we have experienced has delayed this work greatly, and not as much has been accomplished as was anticipated. Then came the order to cut the number of working hours from thirty to fifteen. It is expected however that this work will be continued after February 15th and if this is done, we may be able to finish the projects laid out.

We have endeavored during the year to conduct the town affairs with the best interests of the tax payers in mind, and for the best interest of the town.

J. W. RANDLETTE,
L. E. UMBERHIND,
B. L. LUDWIG,
Selectmen of Richmond.

Richmond, Maine, Feb. 1, 1934.

To the Superintending School Committee and Citizens of
 Richmond:

I herewith submit for your consideration the annual report of the Superintendent of Schools for the fiscal year ending Jan. 31, 1934.

The school census as of April 1, 1933 shows that there were 461 persons of school age in town, a loss of 30 from last year.

The enrollment of the schools at the close of the school year in June was as follows:

Grade:	1	2	3	4	5	6	7	8	9	10	11	12	
	46	26	43	33	19	34	31	32	34	27	21	15	Total 361

Of this number 29 completed the elementary school course and 15 were graduated from high school. The average attendance was 338.

The enrollment of the schools in September was as follows:

Grade:	1	2	3	4	5	6	7	8	9	10	11	12	
	27	41	28	51	40	30	34	35	35	23	26	19	

Post graduates, 4. Total—393.

At the opening of schools in September there were 9 pupils from Bowdoinham in the elementary schools and 4

in the high school. The No. 5 school had a registration of 25 pupils with classes in every grade.

I wish to thank the members of the Board and citizens for their continued support and good will.

Respectfully submitted,

MERLIN C. JOY,
Superintendent of Schools.

REPORT OF PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent and Superintending School Committee:

I herewith submit my annual report as principal of your high school.

The fall term opened September ninth with an enrollment of one hundred and six students, including four post graduates. This necessitated our having book shelves built in the Commercial room so that ten students could use it for a home room.

An innovation this year has been the activity period, one period set aside every day for various club activities and programs, and assemblies. Several new clubs have been formed and are making themselves an important part of our school life.

The teaching staff at the beginning of the year consisted of Mr. Charles Jordan, principal, teaching the mathematics and sciences; Miss Betty Mann, who taught French, Latin, and Ancient History; Miss Thersa Brown, in charge of the Commercial department; and Mr. Paul Jack, who replaced Mr. Rood as submaster and head of the English and History departments. Miss Mann tendered her resignation in November, and Miss Muriel

Hamilton was secured to replace her. Miss Hamilton came to us very well recommended and is fitting into our organization splendidly.

Mr. Welsh is deserving of highest praise for his efficient services in keeping our building comfortable during this difficult winter, and for his willingness to cooperate in every way.

I wish to commend the people of Richmond for the interest shown in the schools by the formation of a Parent Teachers Association, which must result in increased efficiency of our educational system.

I wish also to thank the Superintendent and members of the Superintending School Committee for their interest and cooperation in all our school activities.

Respectfully submitted,

CHARLES W. JORDAN,
Principal Richmond High School.

REPORT OF HIGH SCHOOL LIBRARIAN

To the Superintendent, Board of Education and Citizens:

I herewith present the Eighth Annual report of the Richmond High School Library.

There have been twenty-five volumes added to our Library during the present school year. These volumes were given by: Mrs. Perley Joy, who gave a set of Charles Reade's novels consisting of fifteen books; and Mr. George Wilson, who gave a set of Charles Stoddard's Lectures which are travel books.

Mr. Albert Page has continued his gift of the New Outlook and Review of Reviews. Further periodicals have been given by the D. A. R., who have subscribed to the

National Republic and Daughters of the American Revolution Magazine for our Library.

There has been, during the year, a doorway cut through the library and adjoining language room in order to make a larger and more convenient reading room.

The Richmond Public Library has been a great benefit in supplementing our material. Mrs. Howe has given freely of her time and knowledge in helping us.

Respectfully submitted,

PAUL JACK,
Librarian.

REPORT OF THE PRINCIPAL OF THE EMERSON GRAMMAR SCHOOL

To the Superintendent and Superintending School Committee:

It is with pleasure that I submit the report of a most successful year just completed.

The enrollment has decreased slightly to 242 pupils as compared with 278 pupils of last year. Of the total number enrolled 108 remain in the school lunch room each day during the noon hour for lunch. Three teachers are always in charge.

The health of the child, which is now considered as important as his intellectual growth, has had a prominent part in the curriculum of the school. During good weather out-of-door periods of exercises and games have been maintained for all pupils. In winter gymnasium classes are held in the High School Gymnasium for the pupils of the four upper grades. Boys' and girls' basketball teams

have entered in several contests. Supervised play is carried on at all recess periods.

A most enjoyable evening of music was passed on March 23, when two operettas were very successfully presented. Rehearsals have now started for two operettas to be presented on March 22.

Twenty-nine fine specimens of American youth were graduated on June 8.

All holidays have been specially observed by programs or social affairs.

Many fine talks have been given by citizens of the town at the Friday morning Chapel Exercises.

With the other members of the faculty, I wish to extend heartfelt thanks to you and the citizens of the town for your splendid support.

Respectfully submitted,

CHARLES E. WEYMOUTH,

Report of the Chief of the Fire Department

In making the report of the fire department for the year ending December 1st, 1933, there is satisfaction in the fact that the number of fires have been cut down during the last year. Some twenty less calls were made upon the department. This may or may not be due to the work that is being done in the way of inspections for fire hazards, and to the fire prevention work of the department. The fire prevention work outside of inspection, has been principally with the schools, talks have been given the children, calling their attention to the many fire hazards that exist in their homes, in the high school a contest has been run which has not yet been determined, but will be before the spring term closes. The contest is to "Stamp Out Fire" and the students who show the largest number corrections made in their homes of fire hazards, by classes will be awarded some sort of emblem that will stand as a monument to that class. The fire inspection work has developed many serious conditions and the eliminations of these conditions has without doubt prevented many fires. The number of calls to the country districts have increased this year, and serious damage to valuable property has been averted. The tax payers should bear in mind that since we have apparatus that can give the farmer practically the same protection as the village, and because of the distances the department has to travel more man hours are involved and the expense must be greater for the maintenance of the department. The appropriations are about the same now as they were when only hand drawn apparatus was in use, and the department cannot be handled and cover the territory on so small an appropriation. And there is not a department of the town that means so

much to the property holder as the protection of his property. We have a very efficient group of men, who are interested in the saving of property, and put forth every effort to prevent unnecessary destruction. There is perfect harmony in the department, and the men are ready day or night to answer the dreaded fire signal regardless of the weather.

The new Forest Fire Service truck which was put into service last year has proven to be a very valuable piece of apparatus, and is used as the first call apparatus for every fire, it was a much needed addition to the equipment of the department.

During the year the department has answered sixty-three (63) calls, and the property value involved amounted to \$48,150.00, with a loss of \$2200, or a loss equal to two tenths of one per cent of the total valuation (.002) and the cost has been less than two mills of the tax rate which will compare in our favor with any other fire department. During the year every fire has been confined to the property in which it started and there has not been any spread because of exposure from the fire, and this accounted for by the quick response that is made by the members of the department, and to the efficient work of the men when on fire location.

Much additional protection to the rural sections of the town could be given if the town would appropriate each year a small amount to be used in the construction of reservoirs for the collection of water in those sections where there are several farm buildings closely situated. We have already one or two such reservoirs, but there could be many more built and give the farmers added protection. There is nothing that is more discouraging to the fire department or to a property owner to have a fire in his buildings and no supply of water within a long radius of his buildings. Any small stream of water could be inex-

pensively dammed up that would hold water enough to give a year around supply of water. Lack of water and long distances to run hose causes much delay when it may be the means of saving a set of buildings by having a water supply handy.

We have in our department equipment to the value of at least \$12,000.00 all motorized and the town by taxation has only spent \$2500.00 for this equipment. It has all been raised by the men of the department without cost to the town, through the Firemen's Relief Association. The last addition was made in November, 1933, when the association had an opportunity to purchase a ladder truck at a very low figure. The association had to go in debt for it, but were interested enough to grab the opportunity to make this addition to the equipment. In this truck we have more than \$1000.00 worth of truss type ladders in addition to the truck equipment, and this has not cost the tax payers anything, but the town does have to maintain the equipment which they should be willing to do as the maintenance cost is small. Following is a list of the causes of fire during the past year. False Alarms 2; chimney fires 39; Grass 3; Automobile 3; Woods 3 Brush 1; Overheated Stoves 2; Explosions 2; Roof, from unknown cause 1; Smoking 1; Gasoline Stoves 1; Town Dump 1; Unknown 4.

TOWN WARRANT

To Charles W. Messenger, a constable in the town of
Richmond, County of Sagadahoc, State of Maine.

Greeting:

In the name of the State of Maine, you are hereby required to notify and warn the Inhabitants of said Town of Richmond, qualified by law to vote in town affairs, to assemble at the Town Hall in said town on Monday, the fifth day of March, A. D., 1934, at eight o'clock in the forenoon, to act on the following articles to wit:

Article I. To choose a moderator to preside at said meeting.

Article II. To choose, Selectmen; Assessors; Overseers of the Poor; Town Clerk; Treasurer; Trustee of Trust Funds; Road Commissioner; Tax Collector; Member of School Board for three years; Auditor and Fire Wards, polls to be open from 8 a. m., to 12 m.

AFTERNOON SESSION

Article III. To hear the report of the Selectmen, Assessors, Overseers of the Poor, Road Commissioner, Treasurer, Auditor and Superintendent of Schools.

Article IV. To see if the town will vote that the Collector of Taxes shall settle in full, for all the taxes legally assessed and committed to him for collection, on or before February 1st, 1935, or forfeit all of his commission or salary.

Article V. To see what per cent the town will vote to pay for the collection of taxes.

Article VI. To see if the town will vote to fix a date when all taxes for the ensuing year shall become due and payable.

Article VII. To see what percent the town will vote to allow for discount on taxes, and fix the date of such discount to terminate.

Article VIII. To see if the town will vote to charge interest at the rate of six per cent per annum on all taxes remaining unpaid December 1st, 1934, and instruct the Board of Selectmen to take such action for collection of unpaid taxes, after December 15, 1934, as they deem advisable.

Article IX. To see if the town will vote for the collector of taxes to accept prepayment of taxes before commitment and/ or accept tax payments in weekly or monthly installments at the convenience of the tax payer.

Article X. To see what compensation the town will vote to pay the road commissioner.

Article XI. To see what price per day or per hour the town will vote to pay men, horses and trucks.

Article XII. To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State Aid, as provided in section 20 of Chapter 28 of the Revised Statutes of 1930.

Article XIII. To see what sum of money the town will appropriate and raise for the improvement of the section of State Aid road as outlined in the report of the State Highway Commission (in addition the amounts regularly raised for the care of ways, highways, and bridges) under the provisions of Sec. 19, Chap. 28 Revised Statutes of 1930, or under the provisions of Sec. 3 Chap. 175 Public Laws of 1933.

Article XIV. To see what sum, if any, the town would recommend to take from the joint state aid account for the purpose of applying bituminous surface treatment to state aid roads built within the past five years in accordance with the provisions of Chapter 271, P. L. 1931.

Article XV. To see if the sum of \$99, or more, will be raised for school nursing in the town of Richmond, under the auspices of the Bureau of Health of the State Department of Health and Welfare. As the amount of the appropriation increases, the length of service will be greater.

Article XVI. To see if the town will vote to authorize the selectmen to sell any real estate which the town owns or in which the town has an interest by virtue of any tax deeds, for such consideration as the selectmen may determine and to give a quit claim deed therefor, said deed or deeds to be executed on behalf of the town by the Town Treasurer, when duly authorized by the Selectmen.

Article XVII. To see if the town will vote to enact the following ordinance:

Domestic Fowl

All owners of domestic fowl, within the village limits of the Village of Richmond, shall hereafter

keep such domestic fowl within fenced enclosures on their own property. Any person failing to observe this ordinance, shall upon complaint and conviction be fined (\$5.00) five dollars and costs, for the benefit of the town.

Article XVIII. To see if the town will authorize the Selectmen to procure temporary loans to the amount of \$18,000.00 in anticipation of taxes for the purpose of pay indebtedness of the town. Such notes to be paid during the current municipal year out of money raised during the current municipal year by taxes.

Article XIX. To see if the town will vote to make the Treasurer the trustee of the Issac F. Umberhine Trust Fund, and to execute the terms of the trust.

Article XX. To see what sums of money the town will grant and raise for the following departments, and to pay notes and bonds that come due for the ensuing year.

February 1, 1935.

To the Superintending School Committee and Citizens of
Richmond:

I herewith submit for your consideration the annual
report of the Superintendent of Schools for the fiscal year
ending Jan. 31, 1935.

The school census of April 4, 1935, shows that there were
455 persons of school age in town.

The enrollment of the schools last June was as follows:

Supt. of Schools.

REPORT OF PRINCIPAL OF THE HIGH SCHOOL

To the Superintendent and Superintending School Committee:

I herewith present my first annual report as principal of your high school.

The enrollment on Sept. 4, the opening of the fall term, was 103 pupils. The present number is somewhat smaller, totaling 94. The instructors are: Mr. Paul R. Given, assistant principal and teacher of mathematics, science, and ancient history; Miss Arabel L. Allen, librarian and teacher of languages; Miss Thersa Brown, teacher in charge of commercial department.

Through the cooperation of the teachers a home room system of administration is proving a success. Under this method, the responsibility is shared by all in charge; thereby improving working conditions for the pupils. As evidence of this system's worth there has been a small, although not negligible, rise in ranks during the short time it has been tested.

Among extra curricular activities there is a boys' and girls' basketball team, a tennis club, a school newspaper, as well as a club in nearly every department in the school.

Respectfully submitted,

Paul E. Jack, Principal.

REPORT OF HIGH SCHOOL LIBRARIAN

To the Superintendent, Board of Education and Citizens:

I herewith present the ninth annual report of the Richmond High School Library.

During the past year the library has received from Miss Laura Williams thirty volumes of standard works on lit-

erature, history, and science; and from Mrs. Laura Stilphen the National Geographic Magazine, 1924-32.

Our magazine gifts include the National Republic from Fort Richmond Chapter, D. A. R.; New Outlook and Review of Reviews, Mr. Albert Page; Country Home, Mr. Paul Jack; Literary Digest, Mrs. T. J. Herbert; Ladies' Home Journal, Mrs. S. Reed Allen; Delineator, Mrs. Annie Allard.

Respectfully submitted,

ARABEL L. ALLEN, Librarian.

To the Superintendent and School Board:

The record of this school will suffer nothing when compared with past years' report. The excellent cooperation rendered by the citizens of Richmond added to a staff of teachers who work as one has combined to produce a result to be proud of.

The schedule of last year has been adhered to on the whole with only minor changes. Discipline has been considered of major importance and rules have been strictly abided by. We have strived to inculcate in the children a sense of future responsibility which, together with a conscientious obedience to law and order, will make of these future citizens, better men and women.

Their health has been safeguarded by the usual school program of athletics and exercises. This includes boys' and girls' basketball teams, both of which have a schedule of impending games.

The rehearsals for the two operettas have commenced

and we hope that they will not only measure up to but, exceed the standard set by the preceding year.

The school enrollment is 251 pupils with a large and enthusiastic graduation class of 31 pupils; all of whom intend to seek higher education.

Holidays have been observed by fitting programs and the school has been glad to welcome the many parents who have attended these exercises.

The entire faculty join with me, in thanking the citizens of Richmond as well as the school officials for the sincere and helpful support they have given us this year.

Respectfully,

R. HOWARD BODWELL.

Report of Chief of the Fire Department

To the Board of Selectmen :

In submitting the report of the fire department for the year, beginning December 1, 1933, and ending December 1, 1934, we have to report a greater loss in buildings burned than in previous years. We have been asked by several citizens why the fire department year closes on December 1 and not with the fiscal year of the other town departments. This is because when the town ordinance organizing the fire department was accepted by the town in special town meeting, June 13, 1927, December 1 was named as the closing of the fire department year, and the men receive their pay, on or before December 15. For this reason the clerks of the several fire companies make up their pay rolls to December 1, so that they may have them prepared and approved before December 15. The ordinance was made in this way to avoid a rush of bills at the close of the town year, and also, as the men of the department are all tax payers, it enables them to use the money to meet their taxes, and a large per centage of the pay rolls come back to the town in taxes.

FIRES

During the year we have had total losses on two complete sets of farm buildings. One of these was unoccupied at the time, and the other was occupied. In addition we have had total losses on two farm residences, and one valuable barn, in each of these cases the buildings out side of the building in which the fire originated, were saved. These losses were all in the surburban districts which meant long runs for the department. The total loss in tax value of these buildings was approximately \$5000.00. The depart-

ment has answered during the year 68 calls, averaging nine men to each call, and the men have done efficient work. Among these calls were 10 out of town calls, eight in the Town of Dresden and one in the Town of Georgetown and one on Swan Island. At the fire in Georgetown, with the permission of the Selectmen, we sent the service pumper and a crew of men who were engaged three days in the serious forest fire, which visited that town, and during this time we saved for the town valuable property, the men working night and day. Again we have to emphasize the fact that our citizens, are not yet fire conscious, for 68 per cent of the calls we have answered were entirely preventable and could have been avoided. The department officials have continually advertised the fact that certain care should be taken by property owners, but they still fail to heed the advice, in the protection of their own property, and expect the fire department to save it when anything happens. We have a just reason to be proud of the fire department and the men who compose it, but they cannot do the impossible. We see all around us the results of disastrous fires, we have been fortunate in not having had this experience for many years, but we are not exempt, but we can be a long way toward it if our citizens would give more thought and care to their own property.

EQUIPMENT

The department is sadly in need of hose, our hose of the 2½ inch size is badly depleted, but we have got along so far without asking for additional hose, but we must have it this year. We have not purchased any 2½ inch hose since 1927, and much of the hose is more than fifteen years old, and has served its usefulness. We also need 1½ inch hose if we are to be prepared to successfully combat possible forest fires.

We are also in need of rubber clothing for the protection of the men in fighting fires, as we have not sufficient rubber coats to supply the men whom we depend upon to do this work, we should give the men protection.

From the proceeds of the fair recently held the Firemen's Relief association was able to free itself of debt, which was purchasing of the new ladder truck, which we reported last year, This equipment is now fully paid for and without any expense to the town and tax payers. During the past month we have had to have repairs made on the service pumper, which is the first outlay we have had on this pump, and considering the many thousand gallons this pump has given us in the three years it has been in use, we feel that we have received great value for the expenditure, as this equipment was purchased by the Firemen's Relief association, this is the first expense that the town has been too for this valuable piece of equipment.

INJURIES

For the first time, we have been unfortunate in injuries to the men of the department. During the year we have had three men injured but the town has been saved the expense for these injuries through the insurance policy which is carried to protect the men and the town. One of these injuries only required the services of a physician, one man was severely cut by a broken window, which disabled him for several weeks, but without any serious results, another man broke his arm, when a ladder fell on which he was working. All of these injuries have been taken care of and adjusted satisfactorilly by the insurance company for a total amount considerably in excess of the amount of insurance premium, to the benefit of the town. This insurance should be continued.

APPROPRIATION

The department has been able to keep within its appropriation for all local fires, but some of the appropriation has been used in paying the men for their work on out of town calls, for which the town will be reimbursed by the other towns but has not been up to this time. The largest bill owed the town is for the work at Georgetown for which reimbursement will be received later. If this money which is due the town from other towns could be applied to new hose and other equipment when received, by vote of the town, it would not be necessary to make an appropriation for it. There is due from other towns the amount of \$627.50.

DEPARTMENT ACTIVITIES

In addition to work of fire fighting, the men of the department have taken an interest at their own expense, in the field day meets of hose coupling, ladder and other contests that have been held during the Summer of 1934 in various parts of the state, and have become well known because of these activities. During the year the men have entered eighteen contests and have won seven silver trophies in first prizes. It is hoped that during the year 1935 that we may be able to hold one of these field days in Richmond and bring the other departments to our town, which I am sure would receive the support of our citizens. We also wish to thank all citizens who in any way assisted the Firemen's Relief association in the fair which was held in November, which enabled the association to clear its indebtedness.

THE WARRANT

To Charles W. Messenger, a constable in the town of Richmond, County of Sagadahoc, State of Maine.

Greeting :

In the name of the State of Maine, you are hereby required to notify and warn the Inhabitants of said town of Richmond qualified by law to vote in town affairs, to assemble at the town hall in said town on Monday, the fourth day of March, A. D., 1935, at eight o'clock in the forenoon, to act on the following articles to wit :

Article I. To choose a Moderator to preside at said meeting.

Article II. To choose Selectmen; Assessors; Overseers of the Poor; Town Clerk; Treasurer; Trustee of Trust Funds; Road Commissioner; Tax Collector; Member of School Board for three years; Auditor and Fire Wards; polls to be open from 8 a. m. to 12 m.

AFTERNOON SESSION

Article III. To hear the report of the Selectmen, Assessors, Overseers of the Poor, Road Commissioner, Treasurer, Auditor and Superintendent of Schools.

Article IV. To see if the town will vote that the Collector of Taxes shall settle in full, for all the taxes legally assessed and committed to him for collection, on or before February 1, 1936, or forfeit all of his commission or salary.

Article V. To see what per cent the town will vote to pay for the collection of taxes.

Article VI. To see if the town will fix a date when all taxes for the ensuing year shall become due and payable.

Article VII. To see what per cent the town will vote to allow for discount on taxes, and fix the date of such discount to terminate.

Article VIII. To see if the town will vote to charge interest at the rate of six per cent per annum on all taxes remaining unpaid December 1, 1935, and instruct the Board of Selectmen to take such action for collection of unpaid taxes, after December 15, 1935, as they deem advisable.

Article IX. To see if the town will vote for the Collector of Taxes to accept prepayment of taxes before commitment and/or accept tax payments in weekly or monthly installments at the convenience of the tax payer.

Article X. To see what compensation the town will vote to pay the Road Commissioner.

Article XI. To see what price per day or per hour the town will vote to pay men, horses and trucks.

Article XII. To see if the town will vote "Yes" or "No" on the question of appropriating and raising money necessary to entitle the town to State Aid, as provided in Section 20 of Chapter 28 of the Revised Statutes of 1930.

Article XIII. To see what sum of money the town will appropriate and raise for the improvement of the section

of State Aid road as outlined in the report of the State Highway Commission (in addition the amounts regularly raised for the care of ways, highways and bridges) under the provisions of Sec. 19, Chapter 28, Revised Statutes of 1930, or under the provisions of Sec. 3, Chapter 175, Public Laws of 1933. Recommend \$666.00 or \$1,332.00.

Article XIV. To see what sum, if any, the town would recommend to take from the joint State aid account for the purpose of applying bituminous surface treatment to state aid roads built within the past five years in accordance with the provisions of Chapter 271, P. L., 1931.

Article XV. To see if the sum of \$99.00 or more, will be raised for school nursing in the town of Richmond, under the auspices of the Bureau of Health of the State Department of Health and Welfare. As the amount of the appropriation increases, the length of service will be greater.

Article XVI. To see if the town will vote to authorize the selectmen to sell any real estate which the town owns or in which the town has an interest by virtue of any tax deeds, for such consideration as the Selectmen may determine and to give a quit claim deed therefor, said deed or deeds to be executed on behalf of the town by the Town Treasurer, when duly authorized by the Selectmen.

Article XVII. To see if the town will vote to reimburse Harold D. Lancaster for medical attendance and time lost, through injury received while engaged, in working on road work on Pleasant street in Richmond Village, under E.R.A. labor project.

Article XVIII. To see if the Town will raise and appropriate the sum of one hundred and six dollars, to reim-

burse Harold D. Lancaster for medical attendance and lost time.

Article XIX. To see if the town will vote to pay the Tax Collector 15c for each excise car tax collected.

Article XX. To see if the town will authorize the Selectmen to procure temporary loans to the amount of \$18,000.00 in anticipation of taxes for the purpose of pay indebtedness of the town. Such notes to be paid during the current municipal year out of money raised during the current municipal year by taxes.

Article XXI. To see if the town will vote to make the Treasurer the trustee of the Isaac F. Umberhind Trust Fund, and to execute the terms of the trust.

Article XXII. To see what sums of money the town will grant and raise for the following departments, and to pay notes and bonds that come due for the ensuing year.
